PREMIUM ART BOOK

RICHARDSON'S ACCESSORIES FOR EMBROIDERING

TAKA EMBROIDERY NEEDLES.

(Imported.)

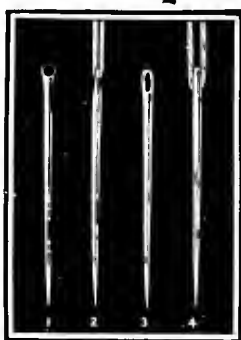

A special hand-made Japanese Embroidery Needle of the finest steel. Warranted to the good graces and warm attachment of the worker.

Illustration No. 1 shows the full round eye necessary to thread the needle with ease.

No. 2 is a side view, after the silk has been passed through the eye of the needle. This illustrates the advantage where the two strands of silk are close together to avoid forming a lump. It allows the needle to pass smoothly through the cloth without causing that jerky sensation which proves such an annoyance to embroiderers.

No. 3 is an illustration showing the eye of an ordinary needle, very trying to the patience and sight of the worker.

No. 4 shows the awkward lump which tires the fingers, causes a monotonous interruption with every stitch and proves exceedingly annoying, and which the Taka Needle overcomes. One trial of the smooth working little Japanese needles and you will not be without them. They are simply—just the thing. The Taka Embroidery Needles are made in Japan and are a special hand production designed for use in working the high Art Embroidery for which the Japanese are noted. Each package is assorted in three sizes. As we do not have any broken packages, we cannot send samples.

Put up in packages of 8 or 12 needles

Package of 8 Needles, 10 cents.

Package of 12 Needles, 15 cents.

NEVLIN EMBROIDERY NEEDLE.

A satisfactory needle in every way.

It is just the length of a fine sewing needle, but has the flattened round eye necessary to the perfect embroidery needle.

A—Shows the round flattened eye.

B—Shows the needle threaded for use.

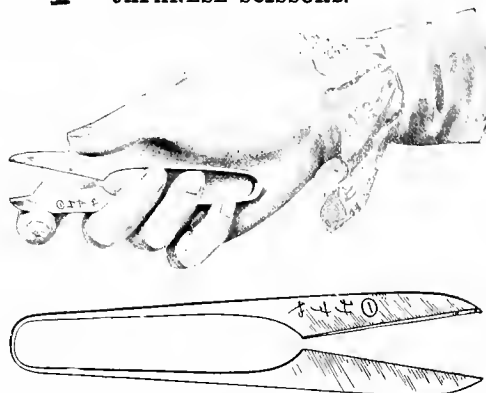

C—Shows an old style clumsy embroidery needle.

D—Shows the old style needle threaded, a bore to the user and a test to the eyesight.

1 Package, 12 needles in 4 sizes

Price, 10 cents.

JAPANESE SCISSORS.

The Japanese Embroidery Scissors are light, dainty and made of the best steel. For cutting silk threads, scallops and ripping they are invaluable. The moment the Japanese Scissors are grasped in the hand they are ready for use. No time is wasted in inserting the thumb and finger into holes, or in releasing them after cutting, as is the case with ordinary scissors.

Time is money, and these scissors save time.

Price per pair, 35 cents.

The designs are of the highest standard of excellence; every Pillow, Centerpiece, Scarf and Novelty being designed by the best artists who could be secured. The success of our fully illustrated Diagram Lesson is marked by the fact that this year we have decided to include a Lesson with practically all of the Novelties. Richardson's Embroidery Hoops and Other Accessories

DUCHESS HOOP

Sizes: 4, 5, 6 and 7-inch

It's the Felt Cushion or band around the inner hoop which gives the required tension to hold tightly stretched light or heavy fabrics equally well, and renders slipping impossible.

The Felt Cushion is secured in a recess, and cannot pull out or become loose. There are no screws or other contrivances to catch the thread. Nothing could be simpler or more effective.

Made of selected light-colored hardwood, very smoothly turned, with rounded edges, true in circle and will not warp out of shape.

Price, 15 cents per pair, any size.

ROYAL OVAL HOOPS

Made in Two Sizes.

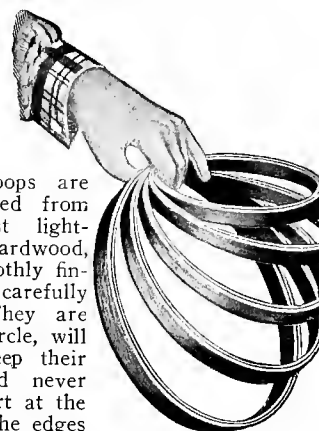

3x6-inch, (the new size) for small embroidery, and especially desirable for working designs on ladies' hosiery, being the only hoops made to fit inside a stocking.

6x12-inch, for drawn work, and large embroidery, having every advantage of a large 12-inch round hoop, with the convenience of a small size. These hoops are made of selected light-colored hardwood, smoothly finished and carefully fitted.

Price, 15 cents per pair, either size.

RICHARDSON'S HOOP

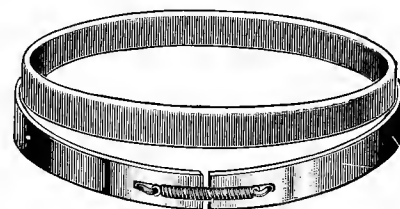

Made in 4, 5, 6 and 7-inch sizes.

These hoops are lathe-turned from the finest light-colored hardwood, very smoothly finished and carefully fitted. They are true in circle, will always keep their shape and never come apart at the joints. The edges are rounded, so as not to cramp or tire the hand. The most popular low priced plain wooden hoop on the market.

Price, 10 cents per pair, any size.

THE VASSAR HOOP

The only adjustable hoop ever made that will adjust itself to any thickness of fabric and hold it securely in place. The inside hoop is wood smoothly finished, the outside hoop is metal highly polished, rust proof and fastened at the end with a coiled spring. Made 4, 5, 6, and 7-inch in diameter.

Price, 15 cents per pair, any size.

RICHARDSON'S PORTFOLIO FOR WASH EMBROIDERY SILKS.

Made of Canton Flannel ready for use. A new and convenient device for keeping Skein Silk from becoming soiled or tangled from handling. In two sizes: Size A, to hold one dozen skeins, and size B, to hold two dozen skeins.

With these portfolios the silk can be so arranged that one thread may be removed from any of the skeins without disturbing either the tags or the silk. There is no possibility of snarling the silk, and it is the most convenient way yet devised of carrying Wash Silks.

Size A, 15 cents. Size B, 25 cents.

THE EASY RIBBON AND TAPE NEEDLE. No Pulling Out—No Twisting.

These Needles are German Silver Plated.

Draw the ribbon through straight slit, then through V, pulling back until point pierces. The needle will carry ribbon three times its width by plaiting the end.

The "Easy" Ribbon or Tape Needle absolutely prevents the ribbon from twisting or puckering and keeps it flat. The inserted end cannot slip out. It is made in sets of two needles, one of each size, $\frac{1}{8}$ and $\frac{3}{8}$ -inch eyelets.

Price, 6 cents per set.
